**Government  
of Alberta** 

## Visit AIH

Encompassing more than 10,000 square feet of meeting, presentation and exhibit area, AIH provides unique opportunities to build business relationships and exchange information. Visit AIH to:

- connect with various international oil and gas exhibitors
- access market intelligence on Alberta's oil and gas industry
- gain insight on procurement opportunities in the world's major oil and gas producing regions
- network with partners, investors and clients

## Alberta International House (AIH)

AIH is one of the largest and most dynamic exhibit areas at GPS – an ideal venue for international and domestic delegates to meet and network. Led by the Government of Alberta, AIH brings together a number of partners, including foreign oil companies, governments, regulatory agencies and industry associations, to:

- showcase Alberta's oil and gas industry, products and expertise
- provide Alberta companies with international market intelligence

### *AIH features:*

- a unique exhibit space showcasing AIH partners
- a presentation area where visitors can learn about business and procurement opportunities in the world's major oil and gas producing regions
- a private executive meeting area for business discussions

### *AIH is designed for:*

- decision-makers and professionals from the oil and gas industry
- equipment manufacturers, operators, contractors, suppliers, engineers, researchers
- experts in environmental management
- governments and regulatory agencies

### *International delegates:*

- access key information on Alberta's oil and gas products and expertise
- meet and network with key players in Canada's oil and gas industry
- connect with Government of Canada and Government of Alberta officials
- learn from industry experts about Alberta's innovative energy and environmental products and expertise

### *Domestic delegates:*

- learn first-hand about business and procurement opportunities in the world's major oil and gas producing regions
- meet and network with key decision-makers from Alberta's international markets
- promote your products and services to domestic and international visitors
- meet with Alberta's industry and trade experts to help grow your business

# About Alberta

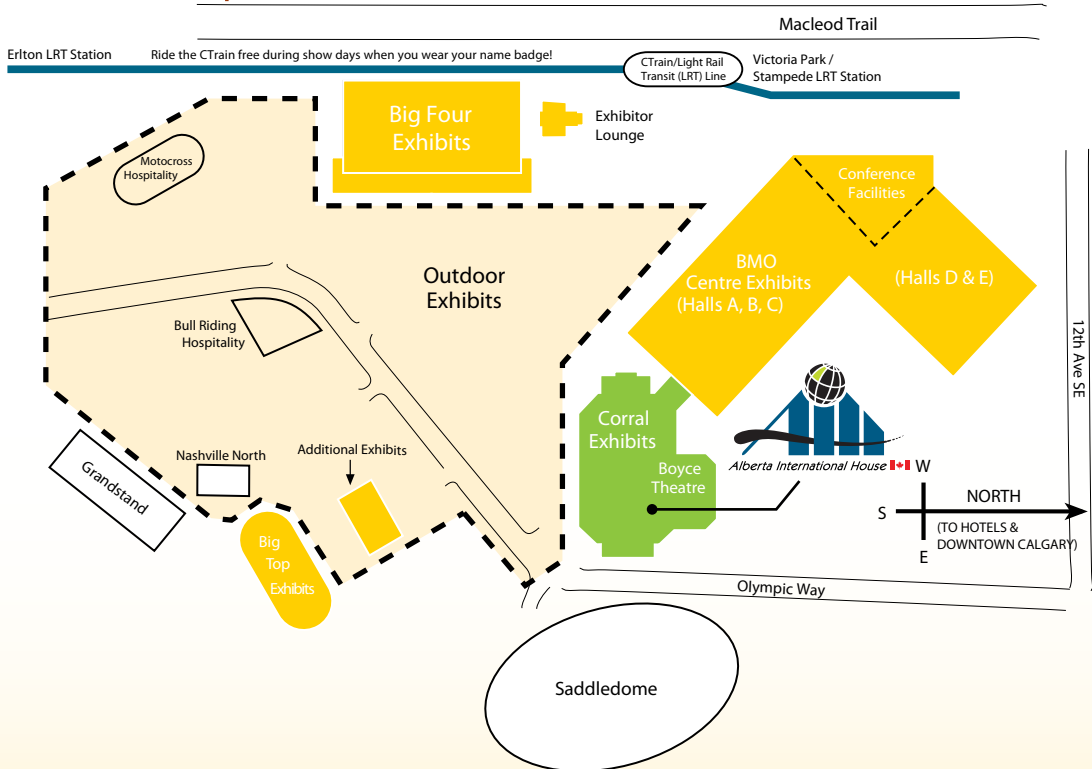

Alberta is home to a number of world-class oil and gas exploration and production companies, pipeline constructors and operators, oilfield service companies, equipment manufacturers, and energy-related engineering and consulting firms. Alberta companies offer expertise in:

- conventional, unconventional and enhanced oil and gas recovery
- oil and gas construction, transportation, and processing
- heavy oil and bitumen extraction, upgrading, and refining

Alberta is also home to some of the world's most innovative energy and environmental products and services companies, with expert knowledge and experience in:

- green house gas mitigation and energy efficiency solutions, including carbon capture and storage
- water use and management
- soil, water, and air remediation and reclamation
